## **APPENDIX**

### **NB**

- The State OPM is to be derived from the GOM – as it relates to State CARES program implementation. The flow should be distinct and State specific. It should not have the same flow as the GOM.
- The Introductory parts: Chapter 1 and part of Chapter 2 would be highly summarized and can be same as in GOM – State specific descriptions should be inserted.
- Chapters 3, 4, 5, 6 and 7 should describe State CARES – Each State should describe these sections as it is to be implemented and managed at the State level.
- Chapter 3 in specific, should state in detail how each DLI is to be achieved with consideration for beneficiaries' selection, targeting process, service

delivery, implementation stages and process, M&E, Key E&S and reporting process.

- There is the Need for each State to be specific on the State Result Framework, overall M&E process etc. as it relates to role of SCCU and State CARES Steering Committee.
- The Programme Action Plan (PAP), Fund Release Policy and Template for Addressing Fraud and Corruption should be domesticated.
